

General Notes

The information depicted on the map represents the results of surveys made on the date indicated and can only be described as indicating the general condition at that time. Unless otherwise noted on this map, all depths and soundings are in feet and related to the International Great Lakes Datum 1985 (IGLD 1985) and all horizontal positions are referred to North American Datum 1983 (NAD83). See the \$10 million project funding for digital data collection. To make a digital version of the survey available to you, please contact the project manager at the address below. Please include the project name and the SURVEY SECTION. To send a message contacting your request, this drawing was prepared using a CAD system. The map must be displayed.
